ELSEVIER

Applied Catalysis A: General 130 (1995) 249–250

APPLIED CATALYSIS A: GENERAL

Contents Volume 130

Letter

n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes [A3146]
Y.S. Bhat, J. Das and A.B. Halgeri (Baroda, India) L1

Articles

Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives [A3139]
M.J. Climent, A. Corma, H. García, S. Iborra and J. Primo (Valencia, Spain) 5

Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts [A3119]
W.-H. Cheng (Wilmington, Delaware, USA) 13

In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions [A3129]
B. Benaichouba (Mostaganem, Algérie), P. Bussiere and J.C. Vedrine (Villeurbanne, France) 31

1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation [A3123]
F.M. Bautista (Córdoba, Spain) and B. Delmon (Louvain-la-Neuve, Belgium) 47

Effects of non-framework alumina in the acylation of xylene over USY [A3112]
R. Fang, G. Harvey, H.W. Kouwenhoven and R. Prins (Zurich, Switzerland) 67

Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins [A3107]
J.F. Knifton (Austin, TX, USA) 79

Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption [A3113]
C. Hoang-Van (Ecully, France) and O. Zegaoui (Oujda, Morocco) 89

Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis [A3125]
M. Fujiwara, H. Ando, M. Tanaka and Y. Souma (Osaka, Japan) 105

Calendar of Forthcoming Events 117

Book Review 124

News Brief

Chemisorption Kinetics. III. Is Tunnelling an Illusion? N2

Maria Curie-Sklodowska University, Lublin, Poland N3

Novel Materials that are of Interest as Catalysts N5

Heterogeneous Hydrocarbon Oxidation N6
Symposium on Chinal Catalysis N7
Workshop on Catalytic Combustion N7
15th North American Catalysis Society Meeting N7
3rd World Congress on Oxidation Catalysis N7

Articles

Methane oxidative coupling on $BaF_2/LaOF$ catalyst [A3133]
Z.S. Chao, X.P. Zhou, H.L. Wan and K.R. Tsai (Xiamen, China) 127

Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts [A3144]
R. Srinivasan, R.A. Keogh and B.H. Davis (Lexington, KY, USA) 135

Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes [A3117]
L. Borkó, Z. Schay and L. Guczi (Budapest, Hungary) 157

The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis [A3136]
J.R. Jennings, R.J. Cozens and K. Wade (Durham, UK) 175

Dependence of the nature and catalytic performance on the synthesis factors of SAPO-5 molecular sieve [A3124]
T. Xiao, L. An and H. Wang (Lanzhou, China) 187

Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor [A3115]
J.E. Ten Elshof, H.J.M. Bouwmeester and H. Verweij (Enschede, Netherlands) 195

Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen [A3134]
G. Larsen, E. Lotero, R.D. Parra, L.M. Petkovic, H.S. Silva and S. Raghavan (Lincoln, NE, USA) 213

NMR study of intrinsic diffusion and reaction in CsNaX type zeolites [A3130]
H.B. Schwarz, H. Ernst (Leipzig, Germany), S. Ernst (Stuttgart, Germany), J. Kärger (Leipzig, Germany), T. Röser (Stuttgart, Germany), R.Q. Snurr (Leipzig, Germany) and J. Weitkamp (Stuttgart, Germany) 227
